

- Turf that will even make carpet green with envy!*

ZEON CHARACTERISTICS

- Exceptional shade & drought tolerance
- Fine bladed with vertical leaf posture
- Deep green in color with exceptional "Eye Appeal"
- Excellent late season color retention & early spring green-up
- Short stolon & internode length

IMPROVED PLANT VIGOR

- Zeon's extensive root system, high stolon frequency, and vigorous rhizome growth, produces a thick compact turf that recovers quickly from injury
- Zeon's turf quality tested much higher, compared to other zoysia cultivars in the National Zoysiagrass tests
- In controlled testing by the National Turfgrass Evaluation Program (NTEP), Zeon produced less thatch than all other zoysia cultivars except 'JaMur' another of The Turfgrass Group, Inc. varieties
- Zeon will consistently establish in a wide variety of soil types
- Zeon exhibited superior genetic characteristics in replicated turf stress trials in Illinois, Georgia, & Texas

CULTURAL PRACTICES

- When maintained at 1-2" Zeon has the feel of a Bermuda type. This is definitely "Barefoot Grass"
- In golf course fairway applications, Zeon can be maintained at as low as 3/8" mowing height
- Zeon can be easily maintained using a standard rotary type lawnmower
- All herbicides and fertilizers necessary for the maintenance of Zeon can be purchased at your local nursery or hardware store
- All herbicides used on other zoysia cultivars can be safely applied to Zeon Zoysia

CERTIFIED PURITY & UNIFORMITY

- Zeon is licensed in the southeast exclusively to The Turfgrass Group, Inc. and its sub-licensees
- Zeon is available only through a select group of licensed certified producers
- Zeon is grown & sold under a rigorous set of rules & guidelines designed to promote on-going quality, purity, and uniformity

STATE CERTIFICATION

- Certification is the only method of assuring the consumer is receiving the variety they purchased
- Zeon can only be produced and sold as a Certified turfgrass variety, unlike many other varieties
- Certification agencies in each state inspect all Zeon production fields regularly, protecting the interests of the consumer by providing a third party system of quality control
